MEET THE SPEAKERS

SMARTBUILDINGS22 London is for all those involved in the future of work and the workplace as well as real estate, technology and innovation

SMARTBUILDINGS is a unique one day Briefing and Innovations Exhibition exploring how new Technologies are shaping the Built Environment and the New World of Work. Leading thinkers and Industry Practitioners come together to debate trends and explore ways to best enhance assets of space, technology and people. We share new global case studies and offer insight into latest thinking around Workplace Apps, Property Technology, Connected Urban Environments, 5G, Sensors, Cloud and Mobile Technology, AI, AR and more... exploring the opportunities these technologies provide for business leaders and their organisations.

The event attracts 100+ senior decision makers from CRE, IT, FM, HR, Architecture and Design. Those attending are interested in saving operational cost or increasing building efficiency, enhancing workplace wellbeing and increasing employee productivity.

KEY SPEAKERS INCLUDE:

Emily Wright
Head of Content, EG

Sir Stuart Lipton
Partner, Lipton Rogers
Development LLP

Despina Katsikakis
Head of Occupier
Business Performance,
Cushman & Wakefield

James Goldsmith
Head of Leasing, AXA
IM

Krupa Solanki
Director of Innovation,
Unwork

Frankie Pringle
Co Founder, Studio
Pringle

REGISTRATION & PRE-EVENT NETWORKING

9:15 **CHAIRPERSON'S OPENING REMARKS**
Katherine Harvey, *Consultancy Director, UnWork*

THEME: FUTURE OF WORK IN WORLD CITIES

9:30-10:10 **THE STATE OF THE WORKPLACE**
Philip Ross, *Futurologist & CEO, Cordless Group & UNWORK*
WORKTECH is founded on the principle that a harmony of people, place and, above all, technology should form the basis for how organisations plan the future of work. Amid the global pandemic, this vision has swum into focus as companies have pivoted to a new model with remote working and a hybrid model at its core. In this session, Philip Ross will share how marginal ideas have become mainstream and by sharing an overview of emerging trends and latest innovations shaping the world of work, he will paint a portrait of the transforming landscape and share tools on how companies can embrace the New World of Work to create new paradigms for workplace

THEME: 22 BISHOPSGATE: A NEW WORKPLACE CONCEPT

10:15-10:40 **THE JOURNEY AND VISION FOR LONDON'S VERTICAL VILLAGE**
Sir Stuart Lipton, *Partner, Lipton Rogers Developments LLP* and Despina Katsikakis, *Head of Occupier Business Performance, Cushman & Wakefield & Philip Ross, CEO and Founder, Unwork*
Sir Stuart Lipton has been at the forefront of innovation, place-making, planning and industry leadership, and at the centre of creating a large proportion of London's most iconic developments. Sir Stuart will open the event in conversation with Despina and Philip, sharing the original vision for 22 Bishopsgate – the most eagerly anticipated addition to urban landscape in a long time - and how this landmark building reflects a broader vision of development as a force for social good.

10:45-11:15 **NETWORKING BREAK AND EXHIBITION**

11:15-11:40 **INTERVIEW: DESIGNING FOR THE FUTURE**
Moderator: Jeremy Myerson, Director, WORKTECH Academy, James Goldsmith, Head of Leasing, AXA, Jack Pringle, Founder, Studio Pringle & Frankie Pringle, Co Founder, Studio Pringle
Experts discuss the buildings' design process, exploring the key aspects that make this campus so unique, including why health, wellbeing and community are at the very heart. How can a tall building address urban challenges of overcrowded pavements, increased numbers of cycles and vehicles, whilst supporting a high-performance workplace culture?

THEME: THE AUGMENTED WORKPLACE

11:45-12:15 **A BLUEPRINT FOR THE OFFICE OF THE FUTURE**
Moderator: Emily Wright, Head of Content, EG, Dan Drogman, CEO, Smart Spaces, Jim Burton, Consultant UK&I – Physical Access Control Solutions, HID Global, Steve Taylor, Digital Innovation Director, Cordless Consultants, Louise Morgan, Site Technologies Project Director, GSK
The workplace is emerging from the pandemic in an altered form, adjusting to the new habits of hybrid working and the drive for more collaborative and efficient working environments. From this challenge form opportunities to build environments that inspire a more dynamic workforce and encourage them to work in a sustainable way. The panel of industry experts will discuss what these opportunities are, what the office of the future may look like and how technology will be key to enabling this.

12:15-13:30 **NETWORKING LUNCH AND TOURS**

13:35-14:00 **THE STRATEGIC CASE FOR DELIVERING SMART AND SUSTAINABLE ENVIRONMENTS**
Sam Wood, *Head of Smart and Sustainable Environments, Cisco UKI*
What is the post pandemic next normal in the workplace? How can commercial real estate owners and operators use technology to differentiate, deliver incremental value and meet sustainability objectives? How are tenants and employees' expectations changing? How can businesses use the workplace experience to avoid the 'great resignation' and win the war for talent.

14:05-14:30 **THE FUTURE OF CONNECTED BUILDINGS**

Peter Bicknell, **Head of Engineering, 22 Bishopsgate** & Tim Creswick, **CEO, Vorboss**
 Vorboss and 22 Bishopsgate both pride themselves on doing things a little differently. A common value that connected the two parties initially. Together, Vorboss and 22 Bishopsgate reimagined the commercial landlord and connectivity supplier relationship with a collaborative partnership that placed the needs of tenants at its core. Making a smart building, or making a building smart, begins by linking its core systems. There is no single set of standards that makes 22 Bishopsgate smart, but the fact every system connects and shares data with its counterparts makes the difference.

14:30-15:00 **NETWORKING BREAK AND EXHIBITION**

THEME: THE FUTURE WORKPLACE: A DESTINATION OF CHOICE

14:55-15:25 **SUPER EXPERIENCE: ENABLING 22 BISHOPSGATE**

Moderator: Kasia Maynard, **Content Editor, WORKTECH Academy**, Caleb Parker, **Founder & Director, Bold, NewFlex** & Philip Shalless, **Senior Asset Manager, AXA Real Estate Investment**
 Experience – now more than ever - plays a pivotal role in how people perceive an organisation from the outside, and how they work together on the inside. As part of the return-to-work agenda, we will explore the different facets of 22 Bishopsgate unique community which provides over 100,000 sq. ft of inspiring shared spaces, services and experiences, designed to meet the needs of its diverse, connected community.

15:30-16:00 **EXPERT PANEL: THE OCCUPIERS PERSPECTIVE**

Moderator: Krupa Solanki, **Director of Innovation, Unwork**, Simon Robinson, **Commercial Management, Beazley**, Andy Bugg, **Project Director, Hiscox** & Matt O'Halloran, **Head of Global Occupier Services, Smart Spaces**.
 22 Bishopsgate is a new, people-focused workplace destination, expected to accommodate a community of up to 12,000 residents and visitors, and a working assumption that it will normally operate with about 6000 personnel at any one time. This panel will discuss why 22 Bishopsgate is the workplace of choice, and how this people focused smart building can support the evolving needs and future aspirations of the diverse businesses and people that inhabit it.

16:00-16:15 **CHAIRPERSON'S CLOSING REMARKS**

Katherine Harvey, **Consultancy Director, UnWork**

16:15-17:00 **NETWORKING DRINKS**

17:00 **END OF BRIEFING**

GET INVOLVED AT SMARTBUILDINGS22 LONDON

There are limited opportunities within the agenda for commercial partners to deliver relevant thought-leadership messages to our global audience of senior workplace professionals. Please contact partnerships@unwired.eu.com for more information on being involved
