KEY INFORMATION

MEET THE SPEAKERS

WORKTECH24 New York will attract some of the biggest and brightest names to debate, discuss, and divulge the latest thinking on the future of work and the workplace.

The conference will feature 30+ speakers, including leading international thinkers from industry and academia. Our speakers represent some of the world's biggest brands and best universities and research departments, alongside radical visionaries from new innovative organisations.

Through interdisciplinary speakers and learning experience, we focus on bringing cutting edge ideas and inspiration to the workplace community to enhance creativity and move thinking forward. Instead of focusing on peer to peer innovation through imitation, we aim to curate a unique programme, bringing together experts in the fields of people, place and technology and relevant adjacencies to reflect on the future of work and workplace.

Alongside the conference series, the WORKTECH Academy knowledge hub explores the future of work through six key themes: people, place, technology, design, culture and innovation. Creating leading commentary, research and publications that places scientific research at the heart of key business problems. www.worktechacademy.com

Working Assumptions

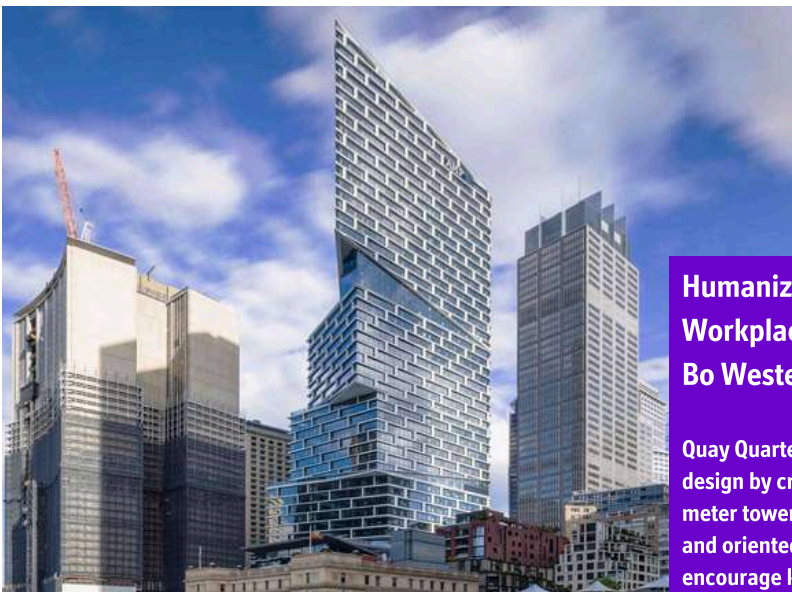

Peter Miscovich, Executive Managing Director, Global Future of Work Leader, JLL / Julia Hobsbawm OBE, British entrepreneur, writer, and expert keynote speaker

Written by award-winning writer and popular podcaster Julia Hobsbawm, whose landmark 2022 book *The Nowhere Office*, predicted the rise in hybrid working long before anyone else, *Working Assumptions* is a clear-eyed view of what Julia identifies as 'The Amazing Age' – a new era replete with challenge and opportunity for all working people experiencing a pace of technological and cultural change not seen in over a century.

Hybrid Success at Scale: Building Effective Hybrid Work Programs

Brian Elliott, Leadership advisor, best-selling author, Forbes' Future of Work 50

In this session, Brian Elliott, a Future of Work expert, will explore recent research on the benefits and challenges of hybrid work. Through case studies from leading organizations, he'll demonstrate how to build successful hybrid programs that boost utilization and employee engagement. The session will emphasize the shift from "facilities" to "facilitation" and the importance of collaboration between Workplace, People, and Tech leadership, offering insights into the ROI of collaborative spaces and strategies for team alignment.

Humanizing the High-Rise and Shaping the Future of the Vertical Workplace - Quay Quarter Tower, Sydney

Bo Westerlinck, Architect, 3XN

Quay Quarter Tower (QQT), named World Building of the Year 2022, redefines high-rise design by creating a community-oriented vertical village in Sydney's CBD. This 206-meter tower consists of five stacked, shifting volumes, each centered around an atrium and oriented toward Sydney Harbour. The atria host informal meeting areas that encourage knowledge sharing and interaction, embodying 3XN's belief that "Architecture Shapes Behaviour." Generous terraces at the base of each block offer spaces for respite within the tower's core.

13:50 | CREATING EFFECTIVE WORKPLACE IN A SHRINKING FOOTPRINT

Hayden Perkin, [Portfolio Strategy, Global Real Estate & Facilities, Amazon](#)

In recent years, the workplace has changed radically. Some leaders are pushing for a return to the office, aiming to rebuild culture and collaboration. Meanwhile, many organizations have already streamlined their physical operations, often reducing their overall real estate footprint and services to decrease operating costs. Employees are now faced with being asked to increase attendance to offices that are shrinking around them. This session will compare past and future strategies, exploring their impact on organizations and employees.
